

RANJAN RAJ KHATIWADA

IT Support Specialist | AWS Certified Solutions Architect Associate

Lalitpur, Nepal | +977-9748273907 | Khatiwadarajan45@gmail.com

GitHub: github.com/RRK223

PROFESSIONAL SUMMARY

AWS Certified Solutions Architect (Associate) with 3+ years of hands-on IT infrastructure experience, transitioning into a Cloud/DevOps engineering role. Skilled in provisioning cloud infrastructure with Terraform, container orchestration with Kubernetes, CI/CD automation using GitHub Actions, and system observability with Prometheus & Grafana. Strong Linux/Windows administration background with real-world enterprise support experience. Trilingual (English, Nepali, German) and available for fully remote positions too.

TECHNICAL SKILLS

- **Cloud Platforms:** AWS (EC2, S3, IAM, VPC, CloudWatch, Route 53)
- **Infrastructure as Code:** Terraform (provisioning and managing cloud resources)
- **Containers & Orchestration:** Kubernetes, Docker (deployment, scaling, and management)
- **CI/CD Pipelines:** GitHub Actions (automated build, test, and deploy workflows)
- **Monitoring & Observability:** Prometheus, Grafana (metrics collection and dashboards)
- **Operating Systems:** Linux (Ubuntu/CentOS) administration, Windows Server, Active Directory
- **Networking:** TCP/IP, WAN/WLAN, VLAN, ONT/PON, DNS, VPN basics
- **IT Support & Security:** MS-365 Admin, Endpoint Security (Kaspersky), CCTV, Firewall/IDS
- **Languages:** English (Professional), Nepali (Native), German (Intermediate)

WORK EXPERIENCE

IT Support Specialist — Aava Global Solutions - Tibarewala Group

Nepal | Jul 2025 – Apr 2026

- Administered Active Directory, MS-365, and endpoint security for a multi-site enterprise environment.
- Configured and maintained LAN/WAN infrastructure (FortiGate and Cisco), VLAN segmentation, and enterprise CCTV systems.
- Set up and troubleshoot MS Dynamics NAV 2018 and FACT ERP, reducing downtime for finance operations.
- Managed daily backups, Kaspersky Business Hub security policies, and patch cycles for 50+ endpoints.

IT Infrastructure Consultant (Contract) — Hotel Tibet

Lazimpat, Nepal | May 2025

- Audited and hardened network security including firewall rules (Sophos), IDS configuration, and server hardening.
- Managed domain infrastructure, virtualization (VMs), and vendor relationships for IT services.

L1 Support Engineer — Techminds Networks Pvt Ltd

Nepal | Jun 2024 – Dec 2024

- Resolved ISP-level issues including PON line faults, MAC binding, and ONT provisioning.
- Diagnosed WAN/WLAN connectivity issues and escalated complex cases to NOC/L2 with full documentation.
- Maintained sub-30-minute average resolution time across a high-volume support queue.

Lab Assistant - IT Support — Presidential Graduate School

Kathmandu, Nepal | Jun 2023 – Apr 2024

- Maintained hardware/software inventory and provided first-line support to 200+ staff and students.
- Administered Campus network, Cisco router and switch, Ruijie, Huawei, and Edge-core APs, printers, scanners, and CCTV systems across two campus buildings.

IT Help Desk Support — *Element Insurance*

Berlin, Germany | Feb 2018 – May 2018

- Deployed and configured workstations for non-technical staff in a fast-paced Insurtech environment.

PROJECTS & DEVOPS PORTFOLIO

DevOps Projects & Hands-on Implementations (Repository: github.com/RRK223/waf-deployment)

- Terraform Modules: Provisioned scalable AWS VPC, EC2, and S3 cloud infrastructure using Infrastructure as Code.
- Kubernetes Orchestration: Formulated deployment manifests and Helm chart configurations for application deployment.
- CI/CD Automation: Built GitHub Actions pipeline templates for automated building, testing, and deployment of containerized applications.
- Observability Stack: Configured Prometheus & Grafana metrics collection and dashboard setups with automated alerting rules.

CERTIFICATIONS & TRAINING

AWS Certified Solutions Architect – Associate (*Feb 2025*)

Validation ID: 673fb3974f8d4c82bddfed241cc49019 (Verify at aws.amazon.com/verification)

AWS DevOps Training — Tekbay Digital (*Nov 2025 – Feb 2026*)

Intensive program covering AWS, Terraform, Kubernetes, Linux, GitHub Actions CI/CD, Prometheus & Grafana monitoring.

Hardware and Networking – Dursikshya Educational Network (*Nov 2023 – Dec 2024*)

Hardware and Network troubleshooting (CompTIA A+ and N+, CCNA course), Windows Server -2019, Cybersecurity Basic.

EDUCATION

Bachelor of Computer Applications (BCA)

Manipal University Jaipur (Online) | Mar 2024 – Jan 2027 (Expected)

Higher Secondary Education Board (HSEB/+2)

Guinness International College | June 2010 – Aug 2013

School Leaving Certificate (SLC)

Golden Future Higher Secondary School | Apr 1999 – Aug 2010
